Volume 8 , Number 1

September - October 2012

What a summer it's been.

For those of you who may have forgotten here is a look at some of the highlights from the Club's support for the community. Here are photos from the Ride 4 United Way and Paul's Dirty Enduro.

Fixed location or mobile, our Club members get the job done. These are the feed station, food truck, repair truck and rover crews. There is more information and pictures on the Club Web-site.

I'd strongly encourage you to join us on some of the public support events.

Believe it or not the organizations we are partnering with would like more of us to be available. What is even nicer is that they have said over and over again how they rely on us.

This is an ideal practice for public support should we be called in an urgent or emergency situation.

In case you hadn't heard

From RAC HQ

RAC Bulletin 2012-057E – Distracted Driving Bulletin: Ontario Extends Exemption
2012-09-25

The Radio Amateurs of Canada are today announcing written confirmation from Minister Bob Chiarelli of the Ontario Provincial Government regarding a five year extension of exemption to the Ontario distracted driving law. In his letter, Minister Chiarelli explains that the current exemptions for both Amateur Radio and Two Way Commercial Radios will be extended until January 1st, 2018.

Get ready for fall.

We still have lots to do. For those of you, who supported the CIBC Run for the cure, send your photos so we can all share them. This reminder, that it is time to submit your membership for the fall 2012 – 2013 year. We have to submit our membership list and the fees for the liability insurance and affiliation in early December.

Finally remember to check the swpc.noaa.gov web-site for the current space weather. A little extra activity helped me get Oregon, Nevada, and North Dakota. With my lowly dipole I couldn't seem to reach.

Your humble scribe
